Professional Profile

Passionate Full-Stack Developer with expertise in backend development, mobile applications, and IoT technologies. Hands-on experience designing complete solutions and providing technical leadership in innovative projects.

Technical Skills

Languages: Java, C++, JavaScript (ES6+), HTML5/CSS3, SQL

Frameworks: React.js, React Native, Express.js, Node.js, SpringBoot, JavaFX, Tailwind, Bootstrap

Databases: MongoDB, MySQL

Tools: Git, GitHub, VS Code, LaTeX, Postman, Figma, Adobe Suite, Microsoft Office, Linux, Packet Tracer, SonarQube

Soft Skills: Technical leadership, team management, problem-solving, adaptability

Education

Université Abdelhamid Mehri Constantine 2

Bachelor's in Software Engineering, With Honors

Constantine, Algeria

Sep 2022 - May 2025

Key Courses: Data Structures, Algorithms, Software Engineering, Databases, OOP, Web Development

Technical Projects

Intelligent Greenhouse Management System

SmartAgri IoT

Academic Project

Feb 2025 - May 2025

- Team collaboration (3 developers) on a complete IoT ecosystem
- Full-stack architecture: React Native, Express.js, MongoDB with AI integration
- Real-time monitoring, disease detection via vision, and weather-based recommendations
- Multi-user interface with estimated 30% maintenance cost reduction

Image Recognition System

Image Classification System

Academic Project

Oct 2024 - Jan 2025

- JavaFX application for image classification using pre-trained models (PyTorch with DJL)
- Intuitive UI with real-time classification results
- Custom model training support on local datasets
- Performance visualization and support for various image formats
- Technologies: Java 23, JavaFX 17.0.6, DJL 0.31.0, Maven, PyTorch (CPU)

Languages

Arabic: Native

French: Fluent

English: Fluent

Interests

Technology: Tech watch, Open Source, developer communities, hackathons

Personal: Swimming, Fitness, technical reading, photography, travel
